

# BEK Streaming Device (BSD)

## Overview

The BEK Streaming Device (BSD) provides subscribers with a modern TV user experience for accessing linear and streaming content. Subscribers can control their user experience via intuitive voice commands with the Bluetooth EPIC remote.

The BSD includes the Android 9.0 system, runs with 2GB DDR3 RAM and 16GB storage, and can play videos up to 4K@60fps. The BSD comes with a Quad-Core CPU with up to 1.8GHz rated at 650mhz and an ARM G31 MP2 GPU
