## BEK TV Acquires New Station

(Bismarck, ND) – BEK TV has launched a new television station in Eastern North Dakota, allowing the network to expand its broadcast programming, uninterrupted, 24 hours a day to the viewers of North Dakota and Western Minnesota. This makes BEK TV the only North Dakota-owned station with complete statewide coverage.

BEK-owned KNGF broadcasts over-the-air on Channel 27 in Eastern North Dakota. This new station adds to BEK TV's already expansive cable, satellite, and over-the-air offering, which includes KNDM located in Minot, and KNDB located in Bismarck.

KNGF was purchased via a Federal Communications Commission (FCC) auction in 2022. Prior to that, BEK TV was sharing KRDK airtime in Eastern North Dakota, which limited BEK's ability to broadcast its original, unique, and award-winning programming. It also limited the hours it could broadcast to afternoons and evenings.

BEK TV broadcasts two separate genres of content. BEK Sports produces more than 400 live, local sporting event each year. BEK News consists of a variety of uncensored news and opinion programs hosted by local and nationally renowned personalities and thought leaders. BEK TV is the only North Dakota-owned broadcasting company remaining in the state.

BEK TV programming is available on all cable and satellite providers. It also can be viewed online at bek.tv and on the BEK Play app on all streaming devices.
